+ Supplemental

# Biliteracy Supplemental Suite

Research-backed, authentic Spanish and English language development solutions for PreK–5 dual language programs

# Bilingual Benefits for Today, Tomorrow, and a *Lifetime of Learning*

The benefits of a bilingual education include:

Increased student  
achievement

Enhanced focus on  
relevant and important  
Information

Improved working  
memory

Better communication

Research shows that bilingualism significantly improves executive functioning (concentration, problem-solving, etc.) — a key contributor to academic success. Beyond academics, the cognitive impact of acquiring two or more languages is a key predictor of long-term health and well-being.

Dual-language students perform as well or better than their peers in English-only classrooms on standardized tests across content areas.\*

## Utilize the power of cross-linguistic transfer

Science of reading research shows that students need to build strong language-comprehension skills in tandem with word-recognition to become skillful readers. Our solutions give students direct, explicit, and systematic instruction and practice in all areas of language and literacy to improve academic outcomes in English and Spanish.

### With Imagine Learning's suite of biliteracy solutions, students:

Develop cultural competency as they see themselves and others reflected in a diverse cast of characters

Gain confidence in their language skills with strategic scaffolding and personalized instruction

Celebrate diversity through authentic instruction
